## WINTER FRUIT & NUT TREE LIST 2024

All of our fruit trees for sale at Blueskin are potted during the winter period & available in July. They are hand pruned and potted into our own 'special' compost potting mix. This contains our compost and Osmocote slow release fertiliser to ensure the tree will establish into a healthy specimen in its first season. **Numbers are limited for some varieties**; we suggest you order as soon as possible. If there is a variety you are looking for which is not on the list we will try to source it for you.

### Almonds

ALMOND MONOVALE Hard nut with strong flavoured kernel. Regular and reliable bearer. Self fertile and disease resistant variety. Good pollinator.

### Apples

APPLE ADORE A crisp and juicy mid-season apple; fruit stores well for 2-3 months. Heavy cropping and black spot resistant.

APPLE BALLERINA BOLERO A dwarf apple that has attractive pink tinged, white spring blossom followed by shiny green, early season ripening, fruit, with white juicy flesh. PVR

APPLE BALLERINA POLKA Stunning column shaped tree with attractive white spring blossoms. Bright red-green mid season eating apples of excellent flavour. Ideal for a container. PVR

APPLE BALLERINA WALTZ Columnar shaped tree with pink and white blossom in spring. Late season ripening, red apple with sweet juicy flavour. Ideal for container planting or in garden where space is limited.(PVR)

APPLE BELLE DE BOSKOOP Large dull red ,heavily russeted apple with greenish white,firm flesh. Suitable for eating fresh or cooking. Crisp, tangy full flavoured apple. Ripens late season. Good keeper. Wide spreading tree.

APPLE BRAEBURN ESPALIERED One of the best eating apples on the market. Sweet and tangy, very crisp, juicy and firm. Striped red blush over green skin. Late season. A good keeper.

APPLE BRAMLEY (Old English type) A sharp and fruity variety, high in Vitamin C. Green to yellow skin and large ,flat round shape.Turns golden and fluffy when cooked. Heavy cropper.Stores well. Mid to late season.

APPLE COX'S ORANGE PIPPIN Rich, aromatic, nutty flavoured flesh make this older variety still very popular. Red stripes on green skin when ripe. Ripens early season. Best on fertile soil with good drainage.

APPLE FUJI A firm but very juicy dessert apple. Reddish skin with pink stripe and white flesh. Late maturing. Good keeper.

APPLE GOLDEN DELICIOUS Mild sweet flavour and juicy crisp ,light yellow flesh. Golden-yellow skin when ripe. Old favourite which can be eaten raw or cooked.

APPLE GRANNY SMITH A late, large sized dessert apple. White flesh which is crisp and juicy ,with distinctive flavour.Heavy and regular cropper on upright ,vigorous tree.Self thinning.

APPLE GREENMEADOWS COX Early season apple with green/yellow skin and bright red stripes. Sharp tangy flavour.

APPLE HETLINA	Reliable crops of medium sized, crisp red fruit that have good eating qualities. Early season. Disease resistant tree. Has very high levels of anti-oxidants and other beneficial compounds.
APPLE KIDDS ORANGE	Medium to large crisp fruit with yellow skin, red blush and stripes. Reliable cropper and good keeper. Ripens mid season.
APPLE LIBERTY	Highly recommended disease resistant variety producing medium sized ,high quality fruit with yellow skin and red blush. Flesh is white,crisp, juicy and sweet.
APPLE MONTYS SURPRISE SEMI DWARF	Late ripening ,large apple with red blush over green skin. Crisp for eating but also cooks well. Very high levels of antioxidants and flavonoids which may inhibit growth of cancer cells.
APPLE PACIFIC ROSE	A cross of Gala and Splendour. A unique rose- pink skin colour, medium to large with a rich, sweet flavour, and crisp juicy flesh. Exceptional appearance and storage capability. PVR
APPLE PEASGOOD NONSUCH	The best of all cooking apples. Very large, round golden yellow apple with a red flush and stripes. Flesh is tender with a pleasant flavour. Mid season.
APPLE ROYAL GALA	Very Crisp apple with white flesh and red skin. Sweet. Early maturing and good keeper.
APPLE STURMER	Late season, medium sized eating and cooking. Green with russet blush skin .This is one of the best all round apples and is an excellent keeper.
APPLE double graft PEASGOOD NONSUCH & MONTY'S SURPRISE	<b>Peasgood:</b> The best of all cooking apples. Very large, round golden yellow apple with a red flush and stripes. Flesh is tender with a pleasant flavour. Mid season. <b>Monty's Surprise:</b> Late ripening ,large apple with red blush over green skin. Crisp for eating but also cooks well.
APPLE double graft ROYAL GALA & BRAEBURN	<b>Royal Gala:</b> Late ripening, large apple with red blush over green skin. Crisp for eating but also cooks well. <b>Braeburn:</b> Sweet and tangy, very crisp, juicy and firm. Striped red blush over green skin. Late season. A good keeper.

## Apricots

APRICOT APRIGOLD	Dwarf apricot with single pink flower and green foliage. Full sized, early season fruit which are highly coloured and have a tangy flavour.
APRICOT CLUTHAGOLD	Large fruit with real apricot flavour. Has an orange skin with slight red blush. This is a great eating experience! Ripens late January.
APRICOT CLUTHALATE	Medium sized orange fruit with sweet juicy flesh. Late season and self-fertile. Requires winter chilling, good drainage and plenty of sun. PVR
APRICOT GARDEN ANNIE	Showy pale pink flowers in spring . Medium to large fruit has bright yellow skin, is semi-clingstone juicy and firm. Self fertile, ideal for smaller garden or in container.
APRICOT MOORPARK	Large fruit with real apricot flavour. Has an orange skin with slight red blush. This is a great eating experience! Ripens late January.
APRICOT TOMCOT	Very large fruit with strong red blush over orange skin. High quality, freestone fruit with intense apricot flavour. Compact tree with masses of pink blossom in spring. Self fertile.
APRICOT double graft SUNDROP & TREVATT	<b>Sundrop:</b> Attractive yellow fruit with golden skin, good flavour, which is even better when fully ripe. Strong grower. Ripens mid -late January. Suitable for dessert or preserving. <b>Trevatt:</b> Good sweet flavour with juicy, firm, orange flesh. Pale yellow skin. Med to large fruit. Can be eaten fresh, dried, jammed or preserved. Ripens early season.

## Berries & Currants

BLUEBERRY BLUECROP	(Northern Highbush) Vigorous, upright shrub, known for huge crops of large berries mid-season. Tolerates spring frosts. Pollinate with another Highbush variety such as Reka, Muffin, Duke, Nui
BLUEBERRY BLUE JOY	(Northern Highbush) Early season variety with medium size, mild flavoured berries. Prefers acidic soils. Best planted with Bluecrop, Dixie, Duke or other Northern Highbush variety.

BLUEBERRY DIXIE	(Northern Highbush) Large, fragrant berries with rich, tangy-sweet flavour, ripening from mid-Jan to February. Pollinate with another Highbush variety.
BLUEBERRY DUKE	(Northern Highbush) Early ripening with good crops of mildly sweet-flavoured berries. Requires acid soil, summer moisture and sun. .Pollinate with other Northern Highbush variety such as Blue Crop, Blue Jay or Dixie.
BLUEBERRY REKA	(Northern Highbush hybrid) Dark blue, medium sized berries with a sweet flavour, ripening before Christmas. Good autumn colour. Pollinate with other Highbush variety such as Blue Crop, Muffin, Nui, Duke.
BRAMBLE BLACKBERRY BLACK SATIN	A very vigorous hybrid thornfree blackberry, flowering and cropping early in the season. Moderately sized, soft, juicy black fruit with a tangy flavour. Slightly dull when fully ripe.
BRAMBLE BOYSENBERRY MAPUA	A mostly spineless berry, cropping well in late season. Large berries easily harvested. Some fully thorny canes will grow from below ground and should be cut off as low as possible. Prefers full sun, fertile soil and well watered while fruit ripens.
BRAMBLE BOYSENBERRY STARLIGHT	A vigorous thornless boysenberry. Produces high yields of large dark wine-red berries with excellent flavour. Prefers full sun and well drained soil. PVR
BRAMBLE BOYSENBERRY TASMAN	Mostly spineless canes with medium to large berry size cropping well and easily harvested. Ripens in December and is delicious to eat.
BRAMBLE LOGANBERRY WAIMATE	A vigorous thornless loganberry with large fruit size and high yields. Long, conical, dusky red fruit with good flavour, ripening from mid summer. Excellent fresh or for processing.
BRAMBLE TAYBERRY LADY IN RED	Scottish cross between blackberry and red raspberry. Large reddish-purple fruit with aromatic flavour, produced on last years growth over long period. Canes semi-upright. Sunny position with plenty of organic matter. Very hardy.
CURRENT BLACK FOREST	A hardy currant with heavy crops of tasty black berries High in anti-oxidants. Prefers full or part shade with constant moisture. Hardy.
CURRENT BLACK MAGNUS	Early fruiting. Sweet, medium sized berry. Prefers deep fertile soil with adequate drainage. Fruit mainly on new seasons wood. Self fertile but will increase yield if planted 2 or more.
CURRENT BLACK SEFTON	Vigorous upright growing blackcurrant with large sized berries ripening in December. Sweeter than traditional black currant; ideal for preserving. Prefers sunny and well drained soil. PVR
CURRENT MURRAY'S RED	A vigorous upright bush with large bright red glossy fruit. An abundance of fruit ripening December/January. Red currants fruit on 2 year and older wood. When pruning take out weak branches and old wood that has fruited.
CURRENT RED GLORIA DE VERSAILLES	(Red) Heavy crops of red berries in December- January. Fruits on 2 year and older wood so only prune out weak branches or to improve shape. Very hardy
GOOSEBERRY INVICTA	A vigorous spreading bush with large pale fruit. Resistant to powdery mildew. Plant in well drained soil with plenty of organic material.
MORUS ALBA PENDULA 1.7M STD	(Weeping White Mulberry) A very striking small weeping tree with closely packed pendula branches. Pale green flowers in late spring followed by sweet edible fruit which are green-white ripening purple. Hardy.
MORUS ALBA PENDULA 1.5M STD	(Weeping White Mulberry) A very striking small weeping tree with closely packed pendula branches. Pale green flowers in late spring followed by sweet edible fruit which are green-white ripening purple. Hardy.
MORUS NIGRA SEEDLING	(Black Mulberry) Dark almost black-red fruits are very tasty . Hardy, wide-spreading tree, which when mature becomes gnarled and picturesque. Very long-lived tree.
RASPBERRY EBONY	Spineless canes with rosettes of berries that turn a dark, rich purple-black when ripe, and have a sweet, delicate flavour. Best in rich, fertile, well-drained soil.
RASPBERRY HERITAGE	Small to medium sized berries borne in large quantities from March to May. Fruits on new wood. Plant in well drained, fertile soil.
RASPBERRY IVORY	Golden yellow raspberries with a delicious, sweet flavour are produced from December to April. Best in rich, fertile soil. Mulch in summer and prune old canes in winter.
RASPBERRY KAITUNA	A summer fruiting, spineless raspberry with a long ripening season. Excellent for fresh picking. Vigorous strong upright canes bearing large medium conical fruit with excellent flavour and good shelf life. PVR.

RASPBERRY MINI ME	A compact growing raspberry with sweet red berries. Ideal for containers and virtually thornless. Prefers full sun and rich moist soil. PVR
RASPBERRY TADMOR	Vigorous plant producing arching canes with a few spines. Fruit is large, very firm and light red. Good flavour, high yield. Rich well drained soil, plant against a fence or with support in a cool area of the garden
RASPBERRY WAIU	Mid season variety with very large, fruit that are conical in shape and remain firm when ripe. Very tasty. Repeat fruits in autumn. Best grown in compost rich soil that are moist but well drained. Very hardy.
RUBUS PENTALOBUS	(Orangeberry) Dramatic, fast-growing ground cover related to the strawberry. Delicate white flowers in Spring followed by bright orange fruit for Xmas. Partly self fertile, but better with strawberries or raspberries nearby. Trim after fruiting. Very hardy.
UGNI MOLINAE	(NZ Cranberry, Chilean Guava) A slow growing small sized bush with aromatic leaves. Flowers are waxy pink bells. Fruits are edible tasty mahogany-red berries.
UGNI MOLINAE SUNGOLD	(Variegated Chilean Cranberry) Vibrant golden-bronze tinted young growth. Small white-tinted pink flowers followed by round reddish edible fruit. Hardy. Full sun or part shade. Lime free soil.
WORCESTERBERRY	(Blackcurrant x Gooseberry) Vigorous bush with dark purplish fruit which appear in summer. Berries can be eaten raw or cooked. Their flavour is between a gooseberry and a blackcurrant. Mildew resistant and very hardy.

## Citrus Fruit

KUMQUAT MEIWA	Shiny, thin skinned fruit about 2cm across with tart and distinctive flavour. Good for marmalade. Highly ornamental shrub. One of the hardiest citrus. Prefers a prominent sunny position.
LEMON GENOA	This true lemon produces good size, near seedless, juicy fruit with the main crop in summer. Taste is very tangy. Bushy and near thornless. Needs warm sunny spot and protection from frost.
LEMON LEMONADE	Novelty citrus hybrid.. Crops of lemon shaped medium sized fruit , slightly sweeter than lemon. Juicy, mild flavour. Prefers good drainage , regular feeding and warm sunny position. Needs protection from frost.
LEMON MEYER	Hardy tree which produces large sweet fruit at an early age. Requires good drainage and warm sheltered position. Keep well watered and feed regularly. Avoid deep cultivation. Protect from heavy frost.
LEMON MEYER DWARF	Dwarf Grafted on dwarf rootstock) produces large sweet fruit at an early age. Requires good drainage and warm sheltered position. Keep well watered and feed regularly. Avoid deep cultivation. Protect from heavy frost.
LEMON YEN BEN	Lisbon type lemon with thin skin. This is a prolific bearer . Fruit are juicy. Good variety for home gardener as smaller growing and hardy . Will need warm sunny position and protection from frost .
LEMON YUZU	Rare Japanese citron lemon. Sought after for it's unique sour, tart flavour of zest and juice. More cold hardy than most citrus. Forms attractive small, spiny tree. Requires full sun , good drainage and regular feeding.
LIME BEARSS	This improved selection of Tahitian Lime produces small, thin-skinned, almost seedless fruit. Needs a warm, sheltered, frost free site and well drained ,fertile soil. Ideal container plant .
LIME FINGER LIME	Small, thorny, with tiny leaves this plant produces finger like fruit which contain pearl like sacs which are tart and juicy, sometimes known as Citrus Caviar. Prefers full sun and protection from frost.
LIME KAFFIR	The rind and leaves of this variety are popular in Asian cooking although the bumpy-skinned fruit is inedible. Must have a warm, sunny site with frost protection in the winter.
LIME RANGPUR	Fruit looks like a mandarin orange, not a true lime. Highly acidic a good substitute for limes. Use for marmalade, cocktails, guacamole etc. Full sun, well drained fertile soil. Protect from heavy frost.
LIMEQUAT EUSTIS	Ornamental citrus which is cross between Mexican Lime and kumquat. Small light yellow fruit are sweet without bitterness and can be used as lime substitute. Requires full sun and good drainage. Feed regularly. Good container plant.
MANDARIN KAWANO	Medium sized tree bearing heavy crops of sweet and juicy ,easy to peel fruit. Ripens in winter. Needs full sun and warm sheltered position. Protect from frost.
MANDARIN MIHO	An improved selection of the 'easy peel' satsuma mandarin, bearing crops of large, rounded, flat-shaped fruit. A juicy, mild flavoured fruit. Prefers warm sunny position. Protect from heavy frost.

ORANGE HARWOOD LATE	Average sized, very juicy fruit with a rich flavour. Ripens from November to March. Protect from frost .Needs a warm sunny position.
ORANGE SEVILLE	The spanish variety with heavy crops of fruit for preserves, sauces and marmalades. A vigorous, upright growth habit and produces heavy crops with a sour orange flavour. Prefers full sun and moist but well drained soil. Protect from heavy frosts.
ORANGE SINENSIS CARA CARA	Naturally seedless winter navel orange produces orange fruit with flesh that can take on deep pink tones in spring. Fragrant raspberry orange and rose petal flovour, easy peel. Full sun well drained soil, Protect from frost
TANGELO SEMINOLE	Mandarin-grapefruit cross produces great crops of juicy, semiflat, reddish orange fruit. Mandarin flavour with a grapefruit tang. Protect from heavy frost.

## Cherries

CHEERRY COMPACT STELLA	Large, dark red cherry in huge clusters. Flesh firm, good home garden variety. Ripens around Christmas. Self fertile.
CHEERRY DAWSON	Old favourite. Large dark red skinned, dark fleshed cherry, maturing mid to late December. Upright habit. Can be pollinated by Stella or Bing.
CHEERRY LAPINS	Large, sweet, dark red, firm fruit maturing in early January. Excellent flavour. Self fertile and crack resistant. Very reliable.
CHEERRY MONTMORENCY (SOOR)	An Amorelle-type sour cherry with bright red skin, white flesh and clear juice. Great for pies and conserves. High in antioxidants. A disease resistant, compact, spreading tree. Self-Fertile
CHEERRY STELLA	Large, sweet dark red fruit. Prolific and regular bearer. Great pollinator. Mid-season. Forms a large tree but can be espaliered and trained to shape and size. Self Fertile.
CHEERRY double graft LAPINS & DAWSON	<b>Lapins:</b> Large, sweet, dark red, firm fruit maturing in early January. Self fertile and crack resistant. <b>Dawson:</b> Large dark red skinned, dark fleshed cherry, maturing mid to late December.

## Chestnut

CHESTNUT no. 1005	Vigorous early and consistent cropper. Early harvest.
-------------------	---

## Feijoas

FEIJOA ANATOKI	Exciting new variety with exceptionally sweet ,very early season fruit and large lush deep green foliage. Best planted near another early flowering variety such as Unique or Kaiteri for pollination. PVR
FEIJOA ANTOINETTE	Small to medium semi upright evergreen tree. Medium to large fruit with semi smooth skin sweet aromatic flavour abundance of pulp. Early Season best planted with another early season variety. Fertile well drained soil. PVR
FEIJOA APOLLO	Large fruit with excellent flavour early in season. Requires another variety for cross-pollination. Hardy. Suitable for edible hedge.
FEIJOA DEN'S CHOICE	A plant of good growth habit that fruits mid-season with large sweet fruit. A good variety for eating. This variety is drought tolerant. Best planted with another variety for better pollination, such as Apollo or Kakapo.
FEIJOA KAITERI	Very early season variety with exceptionally sweet, tasty and large fruit. Partly self fertile but best planted with other variety. Feijoas have attractive foliage and striking red flowers in summer. Hardy. Needs hot summer for good fruit. PVR
FEIJOA KAKARIKI	An exceptionally early variety, with very sweet and large fruit. Named after Maori word for green. For best fruiting, plant another early fruiting variety such as Kaiteri, Anatoki or Apollo. PVR
FEIJOA SHERBERT	Early fruiting variety with very large fruit, white flesh and sweet tangy flavour. Vigorous growth habit and more tolerant of drought and wind than other varieties. Pollinated by Unique or other early variety.
FEIJOA SWAN	Mid-season, large round 10-12cm white flesh sweet and fragrant. Vigorous open growth habit, drought tolerant once established. Partially self fertile but better with another mid season such as Den's Choice.

FEIJOA UNIQUE	A small tree which produces lots of large fruit early season .Self-fertile and useful as pollinator. Best to plant more than one bush.Hardy. Can be grown as a hedge.
FEIJOA WIKI TU	A dwarf, easily managed tree with huge fruit of firm texture mid to late season. A good keeping variety. Partly self fertile, but better if you plant with another variety. PVR

## Figs

FIG BROWN TURKEY	A rich flavoured fig of large size, brown skin and pink flesh. Long oval shape. Will bear two crops a year in early summer and autumn.
FIG MRS WILLIAMS	Strong growing tree which crops well. Fruits have yellowish- green stain, with rich red flesh. Requires hot dry conditions.
FIG SWEET BLACK	A vigorous, highly ornamental tree that also provides delicious sweet fruit; fruit ripens around March. Requires a sunny, sheltered spot, protected from wind and frost.

## Grapes

GRAPE ALBANY SURPRISE	Reliable outdoor variety. Heavy cropper of large, juicy and aromatic fruit with bluish-black skin . Vigorous. Disease resistant. Mid-season ripening. Suitable for wine production.
GRAPE CANADICE	Medium sized bunches of red-black seedless grapes, with excellent delicate flavour. Good disease resistance and winter hardiness. Early ripening.
GRAPE IONA	Medium white grape tinged pink when ripened in February. Very sweet and juicy. High resistance to downy mildew. Very hardy and well suited to coastal conditions.
GRAPE NIAGARA	Sweet juicy white grapes with a tangy flavour. Vigorous with large clusters of fruit in mid season.
GRAPE ROBINSON	(Hamburg Type) Black outdoor table grape raised in Palmerston North. Ripens well and fruits twice in warmer climates.
GRAPE SCHUYLER	Large, early fruiting, sweet, dessert grape, with jet black skin. Regular and heavy cropper of medium sized fruit which are produced in long clusters on vigorous vines. Plant in full sun and feed regularly. Suitable for outdoors.
GRAPE THOMPSON SEEDLESS	Famous commercial selection and mainstay of California table grape industry. Large clusters of pale green gold, very sweet, seedless berries. Needs plenty of heat and best with a spray programme. Later ripening.

## Hazelnuts

CORYLUS AVELLANA BARCELONA	Hardy, vigorous hazelnut tree with a large nut, flowering mid-season. Pollinate with Alexandra or Merveille de Bolwillier.
CORYLUS AVELLANA MERVEILLE DE BOLWILLIER	A hardy vigorous hazelnut, cropping in late autumn. Useful tree, ideal for hedging or specimen planting. Delicious nuts and an excellent pollinator.
CORYLUS AVELLANA TONDA ROMANO	Produces good crops of small-medium sized nuts with excellent flavour. Pollinators: Barcelona, Merveille de Bowillier, Tonda di Giffoni
CORYLUS AVELLANA WHITEHEART	(Hazelnut) Large bushy shrub which makes a good hedge. A selected form with nuts of excellent flavour for eating, roasting, cooking or stuffing. Pollinators Alexandra, Merveille de Bolwillier.

## Hops

HUMULUS LUPULUS  
SMOOTH CONE (Hop Vine) Ex commercial NZ bred hop with striking female flowers in autumn. Great as an ornamental, for brewing and for floral arrangements. Requires sun and summer water. Needs to be trained over arch or supported. Hardy.

## Nectarine

NECTARINE FANTASIA A late fruiting nectarine with very attractive yellow/red blushed skin and yellow flesh. Freestone with a lovely flavour. Spray regularly with copper spray in spring to control peach curl.

NECTARINE MABEL Unique dark purple foliage tinged with green. Delicious sweet purple-skinned fruit. Ripening mid season and is quite hardy to diseases. Self fertile. PVR

NECTARINE NECTAR BABE 60CM STD Sweet, yellow, juicy, freestone flesh variety. Deep pink blossom. Low chilling requirement. Best planted near another nectarine or peach to aid pollination. Great container plant.

NECTARINE RED GOLD Large juicy fruit with yellow flesh and red skin. Freestone. Suitable for dessert and preserving. Mid to late season ripening. Spray regularly with copper spray in spring to control peach curl.

NECTARINE SNOW QUEEN The "classic" old fashioned Delicious creamy, white fleshed fruit with deep red skin. Fruits mid January. Tasty. Freestone. Self fertile

## Olives

OLIVE ASCOLARNO Attractive tree. Fruits in the Autumn, Medium sized, high quality, table olives. Good for preserving with good oil content.

OLIVE EL GRECO Compact tree grown for reliable cropping. Medium sized fruit good for pickling. Good oil content. Fruits at 5 years. A first rate landscape tree.

OLIVE EUROPEA J5 Produce a heavy crop of good sized fruit. Good for pickling or oil.

OLIVE FRANTOIO One of best of Tuscan oils. The olives are smallish and ripen late in season. Vigorous growing, hardy. Self-fertile, but better pollinated with Leccino or Picholene. Pickles well when green.

OLIVE KORONEKI A very hardy primary oil cultivar from Greece. An early cropper. Well suited to coastal areas. Ideal for hedging or screening. Self-fertile.

OLIVE LECCINO A great Tuscan variety producing good low-acid oil. One of the most frost hardy cultivars. Vigorous. Cross pollinate with Picual, Pendolino or Frantoio.

OLIVE MANZANILLA One of the world's most popular table olives. Small spreading tree. Medium sized fruit used both for oil and table. Pollinate with Barnea or Frantoio. Protect from hard frosts.

OLIVE PICUAL Spanish variety. Early producing with high oil content. Salt tolerant variety. Hardy to cold. Compact bushy growth. Self-fertile.

## Passionfruit

PASSIONFRUIT BLACK BEAUTY (Black Passionfruit) A vigorous vine for a warm, frost-free position. Beautiful mauve and white flowers are followed by round fruit, purple when ripe, juicy and aromatic.

## Peach

PEACH APRIL WHITE Delicious white firm fleshed large peach with pink blush. Tree is medium vigour and resistant to leaf curl. Heavy crop late in season. Spray regularly in spring with copper to prevent peach curl.

PEACH BLACK BOY (Peach Sanguine) A late peach with purplish/red flesh and furry purple skin. Late season. Suitable for eating fresh when ripe and preserving. Reliable cropper and resistant to peach curl.

PEACH BONANZA 60CM STD	Yellow freestone peach with red blush. Large, sweet fruit, low in acid, with a mild, refreshing flavour. Highly attractive in both blossom and fruit.
PEACHCOT	Cross between apricot and peach. Golden late season fruit that are very sweet and tasty with firm texture. Regular cropper. Self fertile. Spray regularly in spring to prevent peach curl.
PEACH FLATTO SWEET BONNET	New peach variety with a flat shape making it virtually unsquashable in lunch boxes. Produces large crops of sweet, tasty, yellow-fleshed fruit in early-mid February. Self fertile. PVR
PEACH GOLDEN QUEEN	Late season yellow fleshed clingstone peach. Old favourite for preserving. Regular cropper.
PEACHARINE HEALEYS	Cross between peach and nectarine. Beautiful tasting with golden crunchy flesh with a red blush. Fruits late January. Regular cropper.
PEACH HONEY BABE 60CM STD	Dwarf variety. Medium to large fruit with orange, sweet, juicy flesh and tangy flavour. Showy pink flowers. Partly self fertile. Fruits best near other peaches or nectarines.
PEACH SCARLET O'HARA	Produces large crops of medium to large round fruit, with pink-red skin and white crisp juicy flesh. Fruit ripens mid/late season. PVR
PEACH SWEET PERFECTION	New leaf curl resistant selection found by Helen Brookes near Duntroon. Abundance of red skinned, freestone, yellow fleshed ,juicy fruit. Resistant to browning. Great flavour and good for preserving. PVR

## Pears

PEAR BELLE DU JUMET	Sweet heritage, sugar pear that ripens in late January. The fruit shape is similar to Bosc. Good regular cropper. Self-fertile but assisted by other pears.
PEAR BEURRE BOSC	A mid to late pear with a long shape and brown skin. Good flavour. Heavy cropping. Partly self-fertile but pollination helped by Conference, Taylors Gold, Winter Nelis.
PEAR CONFERENCE	Green skin with some russeting. Sweet and juicy. Ripens February to March. Upright shape, regular, heavy bearer. Self-fertile.
PEAR DOYENNE DU COMICE	A delicious, large mid-season pear. Dessert type, skin green/yellow with a brown blush. Suggested pollinators Bon Chretien or Winter Nelis.
PEAR GARDEN BELLE	Only true dwarf pear variety. White spring blossom, glossy summer foliage and good autumn tones. Delicious ,sweet flavoured fruit with smooth flesh texture and green and slight russeted skin. Ripens mid summer. Partially Self fertile.
PEAR NASHI HOSUI	Apple shaped fruit in late February. Adaptable to both cold and warm climate. Prefers a well drained soil. Prune well in winter. Pollinate with Kosui, Nijiseiki or Shin Seike.
PEAR NASHI NIJISEIKI	Large apple-shaped Asian pear with smooth yellow-green skin. Moderately sweet, juicy flesh. Mid season fruiting. Partially self fertile but better with another variety.
PEAR NASHI REDDY ROBIN	Highly attractive with lemon fruit with a bright reddy orange blush. Fruit are crisp and juicy with a mild sweet, low acid flavour. Resistant to Black spot. Very productive. PVR
PEAR PACKHAMS TRIUMPH	Medium to large fruit with green-yellow skin with red blush and sweet juicy flesh. Heavy cropper and good keeper. Suitable for dessert or preserving .Pollinators are Beurre Bosc Bon Chretien, Conference.
PEAR RED BARTLETT	Dessert or bottling pear. Early ripening with wine-red blush. Partly self-fertile. Suggested pollinators, Conference, Winter Nellis.
PEAR STARK CRIMSON	Bright cherry red in colour with sweet flavour, flesh is quite fine. Ripens in early February. Upright growth Pollinated by Conference, Winter Nelis and William Bon Chretien.
PEAR TAYLORS GOLD	Fully russeted brown skin. Buttery, succulent fruit, which is large and juicy. Ripens late season. Pollinate with Beurre Bosc, Conference, Packham's Triumph. PVR
PEAR WILLIAM BON CHRETIEN	Large, early variety with white, firm but juicy flesh and pale green skin which turns yellow when ripe. Best picked green. Suitable for cooking ,preserving or fresh eating. Pollinated by Beurre Bosc, Winter Nelis, Conference or Doyenne du Comice.

PEAR WINTER COLE	Late medium sized dessert pear. Rich flavour. Good keeper. Suggested pollinators, Conference, Winter Nelis, or William Bon Chretien.
PEAR WINTER NELIS	Good eating pear with light russet skin. Late season ripening and good keeper. Pollinate with Conference or William bon Chretien.
PEAR DOUBLE GRAFT BEURRE BOSCH/ TAYLORS GOLD	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.
PEAR DOUBLE GRAFT CONFERENCE / DOYENNE DU COMICE	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.
PEAR DOUBLE GRAFT WINTER NELIS/WILLIAM BON CHRETIEN	Two varieties on one plant. Ideal for small gardens or just for something different. One variety pollinates the other.

## Pine Nut

PINUS PINEA	(Stone Pine Or Umbrella Pine) Glaucous colour while juvenile. Grows into a small flat top tree, very hardy in dry conditions. Cones 8 - 16cm long. The edible seeds are commonly known as pine nuts.
-------------	--

## Plums

PLUM BILLINGTON	Medium sized plum with dark red flesh and skin. Good dessert and jam plum. Pollinators : Black Doris, Omega, Wilsons Early.
PLUM BLACK DORIS	A popular early, large plum with dark red flesh and black skinned fruit. Vigorous and upright tree. Pollinator Elephant Heart, Billington or Santa Rosa. Good for eating fresh or cooking.
PLUM BURBANK	Large, round, dark red fruit with sweet, juicy, aromatic yellow flesh. Crops regularly and heavily. Mid-season. Partially self-fertile, but better with other plums.
PLUM COES GOLDEN DROP	Large oval yellow plum with good flavour and juicy flesh. Mid-season ripening. Pollinated by Greengage, Damson, Reine Claude du Bavay or Prune
PLUMCOT SPRING SATIN	A plum apricot cross, with the flavour of both fruits combined. Large reddish-black skin with golden flesh that is very sweet and flavoursome. An early season variety. Cross pollinates with any Japanese plum flowering at the same time, including Santa Rosa.
PLUM DAMSON	English plum with small oval fruit. Greenish yellow flesh and blue black skin. Ripens late January. Traditional jam and sauce plum. Self fertile.
PLUM DUFFS EARLY JEWEL	Red skin over yellow flesh. Heavy cropper. Ripens late December- January. Self-fertile and good pollinator for other plums .
PLUM ELEPHANT HEART	Very large, mid-season, red fleshed plum with red skin. Good dessert plum. Upright and vigorous tree. Pollinators Burbank and Omega.
PLUM FORTUNE	Large, round-conical, bright red fruit ripening late January/ February. Juicy, firm yellow flesh. Freestone when fully ripe. Pollinated by Santa Rosa or Billington.
PLUM GREENGAGE ENGLISH	Round yellowish-green fruit with rich tender flesh. Late season. Recommended pollinators- Coes Golden Drop, Angelina Burdett.
PLUM GREENGAGE REINE-CLAUDE DU BAVAY	Heavy cropping, succulent, green fruit with sweet yellow flesh and distinctive greengage flavour. European greengage type. Self fertile. Ideal for bottling or dessert.
PLUM HAWERA	Large dark red fruit with very firm dark, blood red flesh and excellent flavour. Heavy cropper. Ripens January. Good for fresh eating or preserving. Self-fertile.

PLUM LUISA	Very large plum with yellow flesh and skin and virtually freestone. Exceptional eating quality, very juicy. Ripens late January early February. Hardy to all diseases. Self- Fertile. Protected by PVR.
PLUM OMEGA	Late season, large, red fleshed, sweet, free-stone plum. Deep red-speckled green skin. Good eating and preserving. Partially self-fertile. Better with pollinator such as Santa Rosa, Duffs Early Jewel or Billingtons .
PLUM PRUNE ITALIAN	Dark purple skin with light amber flesh that turns red when cooked. Freestone with rich flavour and sweet flesh. Eat fresh, dried or bottled. Cold-hardy tree. Self Fertile.
PLUM PRUNE STANLEY	Large sweet yellow-fleshed prune-plum with purple skin. Self-fertile and good pollinator for others. Heavy cropper. Late season.
PLUM PURPLE KING	Large orange-yellow flesh with purple-red skin .Suitable for fresh eating or cooking. Late season ripening and excellent cropper. Suggested pollinators are Elephant Heart, Omega , Wilsons Early or Duffs Early Jewel.
PLUM QUEEN ROSA	A Japanese plum that was California bred. The fruit is large and round with dark crimson skin and firm yellow flesh that is juicy and sweet. Ripens around February. Pollinate with Santa Rosa or Satsuma.
PLUM RUBY QUEEN	Highly productive variety with dark red/black skin and firm red flesh. Fruit is sweet and juicy. Good disease resistance. Late ripening. Pollinate with Santa Rosa, Elephant Heart, Hawera, Satsuma
PLUM SANTA ROSA	Large dessert plum with yellow tinged pink, sweet flesh. Ripens January- February. Partly self fertile, but better pollination with Duffs Early Jewel or Omega.
PLUM SATSUMA	Medium sized plum with mottled dark red skin and very dark red flesh which is firm, and juicy sweet with slight tang and rich flavour. Heavy cropper .Suitable for fresh fruit, jam or stewing. Freestone. Suggested pollinator Santa Rosa.
PLUM SHIRO	The best yellow plum with golden yellow skin and juicy crisp yellow flesh. Round, clingstone and medium sized. Early to mid season. Suggested pollinator is Santa Rosa.
PRUNUS SPINOSA (SLOE PLUM)	Large dense shrub with dark spiny branches. Small white flowers in early spring. Fruits, like small damson plums are blue then shining black .Used to flavour gin, wine or preserves. Very hardy.
PLUM SULTAN	Large oval fruit, with red flesh and deep red skin. Highly flavoured, ripens January. Crops heavily when young on rather low, spreading tree. Partly self fertile but better pollination with other plums such as Omega and Burbank
PLUM WILSON'S EARLY	Small to medium plums with yellow flesh and red skin. Juicy with slight tart flavour. Heavy cropper in late December -January. Partly self-fertile but benefits from pollination with Omega or other plums.

## Pomegranate

PUNICA GRANATUM EVERSWEET	(Pomegranate) A deciduous shrub with glossy leaves and large orange/red flowers in summer. Red skin fruit which give sweet clear juice, virtually seedless ripen in Autumn.
PUNICA GRANATUM WONDERFUL	(Pomegranate) Good ornamental fruiting tree for lawns and borders. Fruit are large, glossy, purplish red with crimson juicy flesh.

## Quince

QUINCE SMYRNA	A vigorous tree with unusually large leaves. Very large fruit with smooth pale yellow skin. Mild, tender flesh, sweet when cooked. Keeps well. Self fertile.
---------------	--
